Waste Paper Drive by the Boy Scouts Friday

Waste Paper Is Great War Need

Citizens Asked to Pile Old Papers and Magazines In Front of Homes Friday

A waste paper drive will be made in Canyon Friday.

The Boy Scouts will gather old paper for the purpose of aiding the war needs. There is a great demand for old paper at the present time in all kinds of war work, and Scouts over the nation are coming to the aid of the government.

All citizens of Canyon are asked to stack their old paper either on their porches, or on the curb in front of their homes Friday morning.

Stack newspapers in one pile and magazines in another. These must be separated before they are taken to the warehouse.

While the Boy Scouts realize a very small profit from these old newspapers to assist in their organization, they would not break even on the deal if they had to bear the expense of gathering and hauling the waste paper to Amarillo. This expense is donated by local citizens who wish to help the Boy Scouts and to come to the aid of the government during the war.

It has been several months since a paper drive was put on in Canyon, and therefore the Scouts should find much paper all over town as they make this drive.

Applications For A and D Gas Books Must be Made Now

Application forms for the renewal of "A" and "D" gasoline books are now available at most filling stations and at the Local War Price and Rationing Boards. Motorists are urged to get them as soon as possible.

"OPA points with pride to the simplicity of handling of renewals this time. There necessarily will be a heavy workload on boards, but cooperation on the part of the motoring public will help eliminate unnecessary hardship on members and clerks," state officials. Rules which should be followed to speed the renewal job are:

1. Applicants must attach the back cover of their present "A" book, properly endorsed on spaces provided for this purpose, to their application forms. (If applicants have lost their "A" book back covers, they must attach their state automobile license receipts to the application in lieu of the cover, which receipts will be returned to applicants by mail with their new books.)

2. Applicants should read carefully the instruction on the form and fill it out exactly as required.

3. Applicants should mail their applications to their local boards and not take them there in person because Board workers will be extremely busy.

Applicants are not required this time to attach their tire inspection records to the applications.

New gas coupons in the book will become valid September 22.

All books will be in the hands of motorists before that time, the official reported.

Population of Randall Has Now Reached 7,682

Randall county has a population of 7,682, according to the number of ration books which have been issued.

When the 1940 census was taken the count showed a total of 7,185.

About 27% of the total population of the county is in South Amarillo, according to the ration books issued.

Randall county has furnished 1,006 men to the armed forces, which is considered a very high average for a county the size of Randall.

Mrs. McDaniel Has Joined the WAVES

Mrs. R. T. McDaniel has joined the WAVES and will report to Hunter College, N. Y., for training. She was accepted in the WAVES at Dallas last week.

Her official name in the organization will be Mrs. Era Glenn McDaniel. She has three brothers in the navy, and chose this branch of the service above other women's organizations.

Aviation Courses To be Offered at W. T.

Well Equipped Field Is Ready and Instruction Offered to the Students

Students at West Texas State College can learn to fly during the 1944-45 session if they wish to include flight training on their college programs.

According to President J. A. Hill, a plan has been worked out and approved by the State Board of Regents whereby college students who wish to pay for the flight instruction could do so and include a ground school course and flight instruction on their college program. Because of the mechanics and sciences included in a ground school course, which also consists of legal aspects of flying and because of the skill developed in flight training itself, a total of six semester hours college credit will be given for those who successfully pursue the two phases of the flight training.

It has been pointed out that students in this region of Texas who would sometimes go long distances to college may save enough on traveling expenses to pay a good share of their flight instruction. Young people who learn to fly will be better qualified for many types of positions in the aviation industry after the war, and will be ready to make use of tomorrow's transportation facilities.

An aviation program is not new at West Texas State College. Civilian aviation training was begun four years ago. Since that time, the West Texas State College Air Field has given flight training to 47 members of the Navy, and a minimum of ten hours each to 1640 aviation students of the 350th Detachment of the Army Air Corps. (Continued on page five)

Master Sgt. Alva Doak radio operator on flights with the Army Air Corps is visiting relatives while on furlough from his station off the coast of Maine.

L. T. Hill, father of Mrs. Burney Slack, returned to Wichita, Kansas the first of the week to be with his son for a while.

Awards Are Made to Boy Scouts at Court of Honor Held Friday Night

Eagle Scout Badge Is Won By Tom Knighton—Other Badges Given

The Randall County District Boy Scouts of America Court of Honor was held Friday night in the First Presbyterian Church at Canyon with Rev. R. W. Jones, Chairman, presiding and being assisted by members of the Court of Honor and District Committee.

The program was opened with invocation by Rev. Jones, followed by presentation of colors by Scouts of Troops 30 and 31. C. R. Burrow, District Chairman, introduced members of his committee to the parents and friends present.

Awards for Second Class rank were made by M. E. Cantrell to Scouts Jim Knott, Horace Carter, Tony Rusk, Troop 31, Lynn Neill, Max Allen, Troop 30. First Class rank awards were awarded by W. W. Nicklaus to Scouts Bill Knighton and Carol Vaughan, Troop 31. Merit Badges were presented by T. E. Allen to Billy Jess Cox, Troop 31, Bookbinding, Handicraft, Wood Carving, Wood Work and Mechanical Drawing; and Tom Knighton, Troop 30, received Aeronautics, Photography, Chemistry, Civics, Camping, Bird Study and Wood Carving. The Star rank was presented to Billy Jess Cox, Troop 31 by Lee Johnson.

Troop stunts were given by Scouts of Troop 30 and Troop 31. The highlight of the evening was the presentation of the Eagle Scout Award, which is the highest rank in Scouting, to Tom Knighton, Troop 30 by Levi Cole who was Scoutmaster of the Troop when Tom started his Scouting. Twenty-one Merit Badges are required upon completion of First Class to earn the award and Tom has qualified for the following Merit Badges: Music, Scholarship, Stamp Collecting, Wood Work, Chemistry, Aeronautics, Photography, Wood Carving, Swimming, First Aid, Life Saving, Personal Health, Public Health, Cooking, Camping, Civics, Bird Study,

No Bargain Days For Newspapers During the Year

The News has been advised that none of the daily newspapers will offer Bargain Rates this year. Every daily newspaper has had to limit its circulation, and actually reject hundreds of subscriptions which have been offered them. They are limited in the amount of paper which they may use in printing their regular editions, and therefore are having to reduce their subscription lists very materially.

The News was advised last week by the circulation manager of the Amarillo News that no Bargain Rates would be offered. Renewals on subscriptions will be accepted up to January 1, 1945, at the regular rate of \$10 per year. After then the subscription rate will be increased to \$12 per year. No new subscriptions will be accepted.

Readers of the Canyon News who wish to be safe in securing a daily newspaper for 1945 should send in their renewals at once. The Canyon News and Amarillo News will be \$11.50 per year until January 1; and \$13.50 per year after that date.

Bond Sales For August Rapidly Nearing Quota

The sale of War Bonds took on new life this week. The quota for the month of August was almost reached in spite of the fine record which was made during the 5th War Loan Drive. Some citizens of Randall county have already bought their limit of \$5,000 in E Bonds for the year.

The quota for August is \$24,100. The total sales for the month up to Aug. 22 amounts to \$20,916.75. This leaves a balance of \$3,183.25 which County Chairman R. H. Wright hopes will be bought before the end of the month.

Pathfinding, Pioneering, Safety, Athletics. Tom's mother, Mrs. Knighton, was given the honor of pinning the badge upon her son's uniform. Following the awarding of the various badges W. J. Hiatt, Scout Executive of the Llano Estacado Council, spoke regarding the Boy Scout Program.

The meeting was closed with the Scouts and leaders giving the Scout Benediction.

Music Department W. T. Announces Fee Changes for Fall

Due to the constant rises in costs of materials, salaries, etc., it has been found necessary to raise slightly the fees charged by the College for applied instruction in the Department of Music. The following is the scale, beginning Sept. 19, 1944:

College students in Piano, Voice, Violin: (per semester) Freshman, \$30.00; Sophomore, \$35.00; Junior, \$40.00; Seniors, majors free scholarship.

Public School Music Majors: (per semester) Freshman, \$30.00; Sophomore, Junior or Senior, \$35.00. Wind Instruments, College, \$25.00; High School and Grade School, \$20.00.

Cpl. Kenneth P. Walters left Thursday for Ft. Benning, Ga., after having spent a two weeks' furlough with his parents, Mr. and Mrs. Percy Walters.

Mrs. R. D. Hall, sister-in-law of Mrs. M. E. Cleavinger, her daughter and son, Ray, with his wife, from Goodwell, Okla., visited in the Cleavinger home Monday.

Lt. (jg) Bill Dillard is home on leave. He will leave Saturday for San Diego where he will receive further orders.

Funeral of Miss Ritchie Friday

Had Taught in College and Was Member of Original Faculty Since Sept. 1910

On August 16th Miss Jennie C. Ritchie, member of the first faculty of West Texas State College, died, ending a career of teaching which began in eastern Tennessee when she was sixteen years of age. Although Miss Ritchie retired three years ago, she really continued to teach, helping small boys and girls and many adults in her neighborhood as she had helped thousands during her many years in the school room.

There have been few, if any, teachers in Texas who have wielded greater influence; she came to the state in the nineties and taught in the vicinity of Dallas until she became a member of the staff of the Mineral Wells high school and where she taught until 1910. It was a striking tribute to the effectiveness of her work there that when funeral services were held there last Saturday, there were dozens of her former pupils who remembered vividly and gratefully the part which she had had in their education and in the development of their characters.

It was through contacts with Dr. R. B. Cousins, made while she was a teacher at Mineral Wells, that Miss Ritchie was chosen to come to the new institution at Canyon. She arrived in the summer of 1910. From that time until her retirement she was an outstanding member of the faculty of the college and an active participant in every valuable phase of community life.

She was a teacher of English, but along with subject matter she was occupied with the task of developing boys and girls. President J. A. Hill once wrote, "She was a master of adolescent psychology." As dean of the high school she managed its problems so skillfully that the superintendent of the training school seldom had to consider the problems of that section; however, Miss (Continued on page five)

Fifty Girls Take Part Girl Scout Work in Canyon

The Girl Scout "A" Association met in regular session in the basement of the Methodist Church on Wednesday, August 16, at 4:00 p. m. with Mrs. W. W. Nicklaus presiding.

Mrs. Nicklaus was lavish in her praise of the splendid work done by Miss Ruth Cross this summer. Miss Cross has given swimming instruction once each week to Girl Scouts and Brownies. There has been an average of about 50 girls a week who have profited by this instruction. Miss Cross is Director of Physical Education for women at West Texas State College and deserves much credit for giving her valuable time so generously to the Girl Scout movement.

Plans are under way for securing the services of Miss Ida Mae McClure, district advisor from National Headquarters, twice each month to train leaders in Girl Scout work. This will be very beneficial to the Girl Scout movement in Canyon.

A finance committee under the leadership of Mrs. Hosea Foster was appointed. Assisting Mrs. Foster on this committee are: Mrs. Ray McReynolds, Mrs. James Jennings, Mrs. Dewey Foster.

As a climax for the summer activities, a picnic is being planned for the entire group of Girl Scouts and Brownies.

Captain C. W. Freed Promoted; Now in France

Captain C. W. Freed has received a promotion from 1st Lieutenant. He is with the American troops in France, according to a letter from Mrs. Freed. Mrs. Freed and baby are with her parents in Detroit.

Captain Freed was head of the Speech Department of West Texas State when he received his commission as 2nd Lieutenant. He was promoted to 1st Lieutenant several months ago.

Information Is Compiled in Canyon Regarding Airline From Roswell

No Money Is Required If Line Is Approved—Canyon Joins Hereford, Clovis

Statistical information regarding Canyon was assembled Monday and Tuesday to be sent to Clovis for the purpose of boosting for a new feeder airline from New Mexico to Amarillo.

T. G. Thompson, secretary of the Clovis Chamber of Commerce, was accompanied by J. R. Jaquet and L. C. Plummer, Clovis business men, in calling upon local citizens for this information.

This party met Dr. S. H. Condon and C. L. Thompson, members of the County Planning Council, Dean R. P. Jarrett, Mayor W. A. Warren, Clyde Warwick and J. W. Shook to discuss gathering these plans from the city. Mr. Shook was completing this survey today.

According to the men from Clovis, a feeder from Roswell to Amarillo is proposed. Roswell business men have pledged a million dollars to put the deal over. They will not ask for money from any of the towns served.

Since no application has been filed from any New Mexico town for feeder lines, this group feels this application will be approved, if any feeder line meets the approval of Washington officials.

The main line would run from Roswell to Portales, Clovis, Hereford and Canyon. Branch lines would be established to service other New Mexico towns if the demand was sufficient.

A complete survey of Canyon was made on blanks furnished by the Roswell Chamber of Commerce. All of the information will be in Washington by Monday.

Changes Will Be Made in Co-op Halls of College

Several changes in connection with the co-operative housing of the college have resulted in a need for hostesses at two of the houses, according to a statement made yesterday by Mrs. Geraldine Green, Dean of Women.

Hostesses at Cactus and Mesquite Lodges supervise all the activities of the houses, but a large part of the work of the households is done by the girls themselves. Hostesses receive maintenance for two people in return for their services. This makes a favorable arrangement for a mother who has a daughter who will be in high school or college or for a man and wife.

Randall Hall, which is one of the largest co-operative living enterprises in the state, will continue under the supervision of Mrs. Nancy McCaslin. Young women who live co-operatively do one hour of work each day and reduce their expenses proportionately.

Dr. Roy Johnson is conducting a revival meeting at Petersburg.

Another Shower Boosts Rain for Year Above 21 In.

Rain Saturday night amounted to 25 of an inch.

This brought the total for August up to 2.90 inches. The total for 1944 was boosted to 21.08 inches.

Row crops generally are good over the county although some suffered a little in the early days of the hot weather.

The regular showers of the month have moderated the temperature to a considerable extent. The nights are very cool.

All of Texas below the caprock is said to be suffering from an extended drought. Crops are very poor, as compared with the fine crops which have been raised on the Plains this year.

The weather prediction is for continued showers over the Plains.

C. H. Jarrett Is Sole Owner of the Jarrett Drug Co.

C. H. Jarrett has bought all of the stock of the Jarrett Drug Company, and is now the sole owner.

The store has been owned by Mr. Jarrett and Mrs. T. V. Reeves during the past 25 years, with Mr. Jarrett a majority stockholder.

No changes will be made in the store since Mr. Jarrett has been manager of the business since the store was started under this firm name.

Supt. J. B. Speer Home From Austin

Supt. J. B. Speer returned Sunday from Austin where he spent eight weeks attending the summer session of the University of Texas.

The Canyon public school will open September 18, at the same time that West Texas State begins the fall session.

Mr. Speer states that the weather has been very hot in Austin this summer. There were only two light rains during the time he attended the university.

A few vacancies exist in the public school faculty which he hopes to fill in a few days.

MARRIAGE LICENSE

Abe Perlman to Birdie Marie Grace, August 16. E. J. Stevenson to Mrs. Vera Placey, August 21.

Mrs. Fern Shepherd arrived yesterday for a two week's visit with her parents, Mr. and Mrs. Percy Walters. Mrs. Shepherd works with the Navy Department in Washington.

Farmers Asked to Vote in Canyon

Only Two Races To Be Settled: Supreme Court And Attorney General

All voters of Randall county are urged to go either to the City Hall or the Alice Landergin School in South Amarillo and vote in the second Democratic primary.

Only two state offices are to be filled in this election.

Judge Richard Critz is running for re-election as Associate Justice of the Supreme Court. He is opposed by Col. Gordon Simpson, now with the American troops in Italy.

The other race is for Attorney General. Grover Sellers was recently appointed to fill out the unexpired term of Gerald C. Mann. He is a candidate for his first term, and is opposed by Senator Jesse E. Martin of Fort Worth.

Considerable interest has developed in these races due to the fact that CIO has started a fight on Critz and Martin.

Critz and Sellers led in the first primaries by substantial votes.

Owing to the fact that so little interest is shown in these races there will be no bulletin board at the News office Saturday night. However, the returns from the two boxes will be reported by the News to the Texas Election Bureau.

Voters from any box outside of Canyon are urged to go to the City Hall and cast their ballots Saturday.

Farm Bureau Held Meeting Monday Hospitalization

The second county board meeting for 1944 of the Randall County Farm Bureau Association was held at the Court House Saturday afternoon.

The meeting was called by the chairman for the purpose of transacting regular business of the association and for a discussion of current programs which are sponsored by the Texas Farm Bureau Association through county locals.

One such program now being placed in operation in Randall county is the Blue Cross Plan of Group Hospital-Service for the members and their families.

This hospitalization plan for farm people which is open to all Farm Bureau members, is handled by the County Association Secretary. A detailed notice on this will be found in the News next week.

County Board members attending the meeting Saturday were: A. E. Wise, E. W. Schaeffer, Mrs. Lester Bryan, Mrs. F. H. Bauer, C. P. Robertson, O. M. Scott, Clarence Beckman, Vincent Friemel, J. W. Spencer, Clem Dugan, Mrs. E. A. Michael, H. W. Burrus, L. E. Mason.

Lt. Paul Foster Is Reported as Missing in Action

Lt. Paul E. Foster is reported missing in action over Germany. His father, Paul Foster, received word Sunday that his son was missing since August 6.

Since that time no further word has been received from the young bombardier. He was a member of a B-17 crew.

Word came from England two weeks ago that Lt. Foster had been decorated with the Oak Leaf Cluster for exceptionally meritorious achievement.

Lt. Foster is well known here. He has visited often in the home of his grandparents, Mr. and Mrs. G. G. Foster.

Miss Elvia Speer Joins WAVES, Will Report Next Month

Miss Elvia Leona Speer, has been accepted for enlistment in the WAVES. She is the daughter of Mr. and Mrs. J. B. Speer.

Miss Speer graduated from West Texas Demonstration High School, Canyon, in 1938, and graduated from West Texas State Teachers College in 1942.

Prior to her enlistment in the Navy, she was band director in the Panhandle High School. She has a brother, Pvt. J. B. Speer, Jr., in the army, stationed at Camp Barkley, Abilene.

She will report to the Naval Training School in New York City some time in September. She is enlisted under the V-10 program and after completing her "boot" training at Hunter College in New York, she will either be sent to a specialist school or directly to her duty station.

The race problem got another boost this week. Two negroes entered a dining car and were thrown out by two white passengers. The Negro waiters on the diner refused to serve any passengers, except military personnel. This is just the beginning of race disputes which you will read every week. Mrs. Roosevelt started this race question. The President has approved race equality through the President's Fair Employment Practice Commission. This commission caused the transportation strike in Philadelphia and the President was forced to call out troops to enforce the ruling of his commission. You may steel yourself for most any kind of racial conflicts during the coming months. If the New Deal continues in power for 4 more years there will be much trouble. However, the New Deal is not alone to blame for the present situation. The Republicans are after the Negro vote just as hard as the New Dealers. Both conventions paid particular tribute to the Negroes. Probably this is not affecting the average run of the men of color, but there are in every race leaders who want and demand everything their own way. These political bosses are in the saddle right now.

It is rather remarkable that in all of the polls taken on the political situation that the President is the leader by only a small margin. This is of considerable comfort to the Republicans at the present time. The general election is 10 weeks away. This simply means that neither party may safely count the votes at the present time. Neither the President nor Governor Dewey have really opened up on the campaign. It is a recognized fact that all elections which start out close are really won or lost during the final two weeks. Voters in August may change their minds before they go to the polls in November. That is the reason why both candidates are proceeding very cautiously, and are not making political speeches. Dewey will open the first week in September. The President will probably take his time in making a reply. He has the inside track and it is up to Dewey to get up steam before it is necessary for the President to set out any back fires. With the end of the war in evidence; with one of the most interesting campaigns about to open—this is one of the most critical and most interesting periods of our nation's history. It's great to be an American!

Vote in the second primary Saturday. True there is not much incentive for the average voter to go to the polls, but this is an election, and the interest of the people in our public officials governs the success of our Democratic form of government. The man on the street has little or no direct connection with the office of Attorney General; neither is he much interested in the personnel of the Supreme Court. But let it be remembered that the Attorney General represents every department of our State government, and give opinions to our county officers on points of law affecting Randall county. Furthermore, the Supreme Court is the highest court in Texas, and is called upon to interpret the laws of the State as they are passed by the legislature. In other words, the Supreme Court is more powerful than the legislature in many respects since this body has the last say on the meaning of all laws, many of which are controversial to many people. Vote Saturday. It is a privilege to be an American, and this privilege carries with it the responsibility of taking an intelligent part in all political affairs of the State.

General Hershey stated recently that Selective Service would go on after the war ended. Now comes President Roosevelt advocating that all boys give one year to the government in some sort of training. He did not specify military training. So far, there has been no peace plan offered which would indicate that America would hold a large military force in readiness for years after the war, and that we should have in Germany and Japan an adequate police force. The American people are not going to relish seeing a large standing army, nor will the idea of policing Germany and Japan with large forces appeal to this peace loving people. However, let it be known that our nation is sick and tired of war. We do not wish to see the recurrence of expensive wars, both in manpower and waste of our resources. Therefore, as a point of wisdom on our part, it will be necessary to hold an adequate number of men under arms to guarantee the future peace.

Donald Nelson, WPB chief, is being sent to China. This leaves War Production in the hands of the faction which opposes reconversion of war plants into civilian production until the war is over. This could mean that the President has decided to get Nelson out of the way for the present and allow the armed forces to have their own way about production of war materials, regardless of the needs for these materials. The fact that Nelson is being sent to China to try to give aid to that unhappy nation indicates that we are going to underwrite a large program in China—largely at the expense of American taxpayers. Those who think that taxes will be reduced materially after the war have another guess coming.

Governor Stevenson wants the next legislature to abolish a bunch of District Courts. That is cheerful news. But wonder how much weight it will carry. The legislature is largely composed of lawyers and they are very cautious about abolishing courts. Randall county used to have a considerable amount of court business. Now it has practically none. Randall is a typical county, and the same condition prevails throughout the balance of the State. A few courts have been abolished in recent years, but others should be abolished.

Governor Dewey has criticized the four great powers—United States, Great Britain, Russia and China for presuming to meet and discuss postwar peace settlements. The Governor is wrong. He talks too much like an isolationist, in spite of his recent declarations in favor of strong international cooperation for peace. The Governor should remember 1918-19. President Wilson had a definite peace program before the powers met in Paris to discuss terms. Wilson failed to take the United States Senate into his confidence; he failed to reveal to the Allies his plan for peace before the meeting. As a result, his peace plan was rejected, and Wilson died a disappointed, heart broken man who had seen his dreams shattered. The Governor is absolutely wrong in jumping on the foreign policy of this nation. We are going to avoid the terrible mistakes of 1918-19, and the only way to do this is for the nations to get together and have a thorough understanding before the war ends. The Governor should encourage such meetings, rather than pop off because a permanent peace is being advocated.

We are going to have foreign trade after the war ends, even if we have to continue giving our stuff away. You understand, practically all of this so-called lend-lease is nothing more or less than a gift. We have secured some things in return for our products, especially from England, but most of the other countries will forget about their obligations to us as they have since 1918. It is known that we have the goods; we have the capacity for manufacturing; we need foreign markets in order to keep our plants running; therefore, we shall continue to give the stuff to all comers. Not a pretty picture for the taxpayers.

Ten million fanatic young Germans are said to be the backbone of Hitler's determined effort to fight on. These constitute the bravest and most daring troops of Hitler's army, and the best women workers in his factories and war plants. These 10 million are still sold on Hitler's idea of a super race, and world domination. When Hitler passes out of the picture, these fanatics will organize to start another war as soon as possible. No wonder America must be prepared for a world police force for many years to come. Brotherly love and kindness is unknown among this class of Hitlerized Germans.

The American Federation of Labor is condemning the political activities of CIO. AFL is continuing to be run as a labor organization rather than a political organization. AFL sees the handwriting on the wall for CIO. The American people will not tolerate the political ambitions of Sidney Hillman and his gang of petty political bosses once they know the truth. By continuing the policy of hands off on political questions, AFL will appeal to the honest unions of the nation which believe in looking after the labor problems of their members and allowing the individual members to vote as they see fit.

Statistics are being assembled regarding a proposed airline from New Mexico. Two or three plans are being developed for feeder lines in the Panhandle. It is rather unusual that no line has been proposed in New Mexico. Canyon has been asked to join in with New Mexico towns for such a feeder line into Amarillo. No money will be asked, as Roswell men are backing the line. Perhaps this is the best opportunity that has been offered for Canyon to secure such a line. The Chamber of Commerce is doing everything possible in compiling information which is necessary for the proposed line.

The present muddle in Texas over presidential electors should do some good. It should hasten the enactment of a constitutional amendment for a direct vote on the candidates for President and Vice President. The Electoral College is entirely outmoded and should be abolished. If the people have sense enough to vote, they certainly have sense enough to vote directly for President and Vice President rather than voting for a group of electors whom they do not know, who in turn are empowered to vote for President and Vice President.

The collapse of Germany will be so complete that the United Nations are worried as to whom they shall look in writing peace terms. Hitler will not quit until his remaining forces are crushed. This simply means that we shall not run away from Europe as we did in 1918-19, but will have a sizable army for many years. Since these soldiers will largely be boys, you may expect to see many international marriages. This might be one method of spreading American ideals among the bewildered and confused people of Germany who are so accustomed to being kicked around.

A Randall county farmer said the other day that he would guarantee a wheat failure in 1945. He planted wheat for several years, always making a failure. When he quit, the farmers started to raise big wheat crops. Now he is going back into the wheat business in 1945. Whether the facetious remarks will be true is one thing; the fact that diversification on Panhandle farms has always paid is another thing—and a truth that no one can deny.

The invasion of South France has been predicted for several months. The fact that it was accomplished with such ease is a great surprise. It shows just how thin Hitler has spread his forces in his vain attempt to gobble up all of Europe and dominate this extended territory with too few men. Another invasion may be expected at another point in a few weeks.

Land inflation is underway. Remember what happened after World War I when \$50 land went to \$200 and \$300 per acre? Don't gamble. Those who buy land with the view of making legitimate use of it for themselves and their families have nothing to fear in present land prices. Those who are simply gambling on future increases in land values should remember that all which goes up and up, must eventually come down, down—and sometime—DOWN!

The Republicans could organize the House of Representatives and oust Speaker Sam Rayburn. However, they are not seeking such a thing due to the fact that election is so near, and they wish the Democratic party to bear all the blame for the present administration. With 26 Republican Governors, the Republicans will most likely control the next House and at that time will elect a Speaker.

OPA sees the necessity of holding price ceilings for a long time after the war ends. Unless there is some kind of price control, we shall see a repetition of tragic inflation similar to the early 20's.

Isn't it odd how history has a way of reversing the verdict that people pass upon their contemporaries? The mists of abuse and harsh, angry words clear away, leaving the figure of a man as majestic as a mountain—after he had died.

In 1896, the "gold bugs" said that free silver, which William Jennings Bryan advocated, would make money more plentiful, which would make it easier for debtors to pay their debts and that would be "wrong" because a creditor couldn't buy as much with a dollar if dollars were abundant as he could if they were scarce; therefore, free silver was "dishonest." They overlooked the fact that the great increase in the world's commerce without a corresponding increase in the medium of exchange had already had the effect of making money scarcer, thereby making it harder on debtors and favoring creditors—but that, of course, was not "dishonest."

And they didn't like Bryan because he was backed by the Populists, "a dangerous element." Actually, the Populists were mostly farmers groping for economic justice in the face of high transportation rates they had to pay and the low prices they received for their products.

Manufacturers posted notices on the bulletin boards that their factories would close if Bryan were elected. Ministers preached sermons urging the election of McKinley on the ground that free silver was "immoral." And that most righteous man, Mark Hanna of slush fund fame, sent forth stump speakers who pointed out that Judas had betrayed the Master for 30 pieces of silver—therefore, silver was accursed. Under the same reasoning, the human race should have quit using lumber because the Savior was nailed to a cross made of wood.

Well, they beat Billy Bryan. And then some prospectors found gold in the Klondike and thereby made the world's money supply more abundant—thus accomplishing, in a different way, what Bryan wanted to do.

And later, Republican presidents issued money made out of paper and nobody said it was "dishonest," and nobody turned down a chance to acquire some of it, either. I heard Bryan declare, with a smile, in a speech in 1914: "They said I wanted to put a government imprimatur on a piece of silver and make it worth \$1. They said if you threw one of

Bryan's dollars into a furnace, you'd have only 54 cents worth of silver. Well, if you'd throw one of their paper dollars into a furnace, you wouldn't have anything."

Bryan never became president but he lived to see many of the principles he advocated become the law of the land; votes for women, the income tax and direct election of United States Senators.

When the reactionaries in the party tried to nominate Champ Clark in 1912, Bryan threw his weight behind Woodrow Wilson, who proved to be one of our greatest presidents.

Those Pharisees who desecrated their pulpits with harangues against Bryan beheld him inspire millions with his magnificent lecture, "The Prince of Peace." He spent his last years in championing the Bible, the divine destiny of man and the immortality of the soul. No one now speaks unkindly of William Jennings Bryan, the Great Commoner.

MORATORIUM

A Negro was walking down the street mulling to himself, when he met his pastor.

"Parson, I wants you to splain sumpin' to me. I hear de white folks talking about dis here moratorium. It's moratorium dis, and moratorium dat. What does dey mean?"

"I'll splain it to you. You see de King of England owes Uncle Sam a lot of money. Uncle Sam sent de King a bill, but de King tore it up. He sent him him another bill and he tore it up. Uncle Sam jes kept sending de King bills and de more he sent him de more he torem."

OFFSHOOT

Sapphira Ann, the colored wash-lady was very proud of her children, of which she had "raised eight head," as she put it, and all of them girls. When she was asked one day to give the names of her children she explained that she had chosen flower names for all of them.

Then she proceeded: "De oldest one is named Gladiola, de nex' one is Pansy, de third one is Heliotrope, de fourth one is Violet, de fifth one is Daisy, de sixth one is Daisy, de seventh one is Morning Glory an' de las' one is Artifishul."

LOOKS THAT WAY

"Mother," said little Mabel, "do missionaries go to heaven?"

"Why, of course, dear," her mother replied.

"Do cannibals?"

"No; I'm afraid they don't."

"But, mother," the little girl insisted, "if a cannibal eats a missionary, he'll have to go, won't he?"

SAY THE WORD

A woman when launching her first ship was a little nervous. She turned to the shipyard manager, standing beside her, she asked: "How hard do I have to hit it to knock it into the water?"

OUT OF PLACE

"Mother, will college boys go to heaven?"

"Yes, son, but they won't like it."

OUR DEMOCRACY

GIVING A "SPRING" TO THE NATION'S PROGRESS

"The use of the Bank is to aid the Government by their moneys and credit, to give a new spring to Commerce, that the Citizens of America shall enjoy and possess that Freedom for which they contend."

—ACT OF CONGRESS ESTABLISHING THE BANK OF NORTH AMERICA—1781.

THE BANK OF NORTH AMERICA—PHILADELPHIA, PA.—1781—

THROUGHOUT OUR HISTORY OUR BANKS HAVE GIVEN STRENGTH AND VITALITY TO OUR FAST-GROWING NATION. THEY PROVIDE THE FINANCIAL MACHINERY FOR FIGHTING THE WAR TODAY—MACHINERY THAT TOMORROW WILL SERVE OUR PEACETIME TRADE AND INDUSTRY. THEY PROVIDE TOO, A SAFE PLACE FOR OUR SAVINGS THROUGH WHICH—TOGETHER WITH OUR WAR BONDS AND OUR LIFE INSURANCE—EACH OF US CAN CONTINUE TO ENJOY SOME OF THE FRUITS OF THAT FREEDOM FOR WHICH WE NOW CONTEND.

LESS NITROGENOUS FERTILIZER

American farmers will have less nitrogenous fertilizers as a result of the curtailed supplies of nitric acid, now critically needed by Ordnance Plants, WPB says. Some of the loss may be offset if arrangements can be made to import larger amounts of Chilean nitrates for agricultural use.

YOUR BOY FRIEND IN AUSTRALIA (QM)

Young lady, if your boy friend is in Australia, you'd better write him today—and every day. The Australian news and information bureau says that an estimated 10,000 American servicemen in that country have married Australian girls. The more than 7,000 marriages registered with American Consulates do not include recent weddings.

PRICES UP ON SOME SMOKED FISH

Most popular cured and smoked fresh water and salt water fish will cost consumers an average of 10 cents a pound above former ceiling prices, OPA says. Smoked fish affected are mild-cured salmon, sablefish, kippered salmon, and whitefish. OPA took action to relieve a price "squeeze" on processors.

ARROW POISON NOW SAVES SOLDIERS

Curare, a deadly poison that native Indians of the Amazon called "Flying Death" because they used it to make poison arrows, is now saving lives of the fighting men of United Nations, the Office of the Coordinator of Inter-American Affairs reports. Curare is now used to relieve spastic paralysis and to relax the muscles of mental patients undergoing convulsive shock.

TAKE YOUR OWN SHOPPING BAGS

When you go shopping, you can give your merchant a lift if you take your own shopping bag or else carry your purchases home unwrapped, because WPB reveals that this year less than half as much paper for retail wrapping and paper bags is available than during a normal year. WPB has asked merchants to wrap for protection rather than appearance.

JAPS GUESS THIS ONE WRONG

The Japs apparently figured that the rainy season from mid-May until late in August would retard the allied advance in Burma. The Japs made a "gross miscalculation," the Chungking radio said, inasmuch as the Allied capture of Myitkyna by Allied forces occurred at the height of the Monsoon season, when the Nipponese, assuming the Allies couldn't "take" the Monsoons may have diverted the "Main part" of their forces to the eastern sector of China.

EASY STORAGE OF VEGETABLES

Any fruits and vegetables available in the fall can be kept for a few weeks in a garage or on the back porch if they are used before freezing weather sets in, the Department of Agriculture says. Where winters are not severe, apples and pears can be kept by setting the containers on a thick layer of newspapers and covering with old rugs, carpeting or newspapers. If matured and thoroughly cured, onions will keep for several months in an attic or an unused room where temperatures stay above freezing. Potatoes may be stored in dry cellars.

In any storage, they should be protected against light. Potatoes should be kept in barrels or boxes to reduce loss of moisture and they do better in temperatures of 50 and 60 degrees than if stored at 40 or below.

NURSES GET MOST CITATIONS

Of the awards and citations given to a total of 105 women in the U. S. Armed Forces to date, 97 women of the Army Nurse Corps got the lion's share, OWI reported on the basis of information from Army and Navy. The distinguished Flying Cross, highest award ever made to a woman, went to a flying Army Nurse in New Guinea.

ROUND-UP

OPA says—Any farmer who sold 6,000 pounds or less of dressed meat having any ration point value and produced from his own livestock during the past 12 months must file a report of his sales on form R-1609 and file with OPA. Cotton compress and warehouse operators may charge a 17 per cent surcharge over maximum rates authorized for the 1942-43 season. Individual consumers, small boarding houses and eating places operated to feed workers inside industrial plants may apply for supplemental ration points if they are in areas where the fresh vegetable supply does not meet nutritional needs. Because of extensive counterfeiting of A-11 gasoline coupons, service station operators should be sure that every A coupon they accept is torn out of a valid ration book and that the motorist has endorsed the coupon with the license number of the car into which the gas is delivered. Because of the shortage of kerosene and other heating oils, issuance of fuel rations for water heating, domestic cooking or domestic lighting has been halted if the applicant has use of electric equipment for these purposes. Manufacturers of 1,768,968 electric irons allocated for production have agreed to market them at their March, 1942, prices.

USDA says—Much of the pulpwood for the V-Box, a soak-proof, paper-board box used in carrying supplies to the Armed Forces, comes from the thinning and logging operations in farm woodlands. Sweet potato meal, made from dehydrated sweet potatoes compares favorably with corn as a feed for steers. Forty-one per cent fewer cattle were on feed for market in 11 corn belt states August 1, this year, than on that date last year, one of the sharpest decreases ever shown. Thirty-five Latin-American students are studying extension methods and farm practices in the U. S. and about 80 will receive such training before July 1, next year.

WRONG ROOM

A celebrated comedian retired late on Saturday night. Soon he heard a scuffling in the corridor and a loud knock on the door. Opening it, he found a Saturday-night celebrant.

"Shorry," he mumbled thickly. "Wrong room." And he zigzagged down the hall.

Fifteen minutes later came another heavy tap on the door. Again his intoxicated friend was there. "Sho shorry, ol' man," he said. "Wrong room." And he went away.

Twenty minutes later there he was again, murmuring apologies for "wrong room." By then the actor was furious; it took him all the bows from three matinees to get sleepy once more.

When at 3:30 he heard the familiar footsteps and knock on his door, he leaped out of bed, opened the door, and shouted: "Well?"

"Fevvensakes!" cried the drunk, "do you have every room in this hotel?"

A HOT WARNING

It was the candidate's first great speech, and he wanted to make it tell, and wished to end with a warning. He could have couched his warning in the old proverb about locking the stable door after the horse was stolen, but that was too commonplace. He wanted something original.

He quickly thought of something better. Then he shouted:

"Don't fellow countrymen and citizens, I beg you—don't wait till the house takes fire before you summon the firemen."

"Do you know," said the young student at the agricultural college to an old farmer, "your methods of cultivation are a hundred years behind the time?"

Looking around, he remarked, "Why, I'd be surprised if you made a dollar out of the oats in that field."

"So would I," smiled the farmer, "it's barley."

THE BOMBER DEAR

He keeps his objective always in sight. A goal more vital than Berlin.

He anticipates the approach with keenest delight. For his aim is a home with a girl in.

"Fifty cents for a shave? Why, your price has doubled."

"Well, so has your chin."

BUY BOOKS

Investigation shows that books will become more and more scarce as the war continues. This means that those who buy books should contemplate their needs and place orders early.

Children Books

We have the largest stock of children's books that we have ever shown. There is no stock in the Southwest as complete as this department. But these books will not last long.

We advise that you buy your winter books soon, especially books for Christmas gifts.

It is time for Christmas buying and no gift is as appropriate as a good book.

WARWICK'S

We invite you to see our large stock of appropriate gifts of all kinds. It will soon be time to ship your gifts overseas to the men in Service.

Social Events of the Week Clubs and Organizations

PUBLIC SERVICE EMPLOYEES SPEED OLD; WELCOME NEW

Thursday night, August 17, the Southwestern Public Service Company had their annual picnic at the Country Club picnic grounds. The men enjoyed playing baseball for about an hour and then came to the hot-dog supper. Each person was responsible for roasting his own weiners for his hot-dog sandwich. Afterwards ice cold watermelon, "nigger-style," was thoroughly enjoyed.

C. D. Hardesty, Loraine Sisk, Mr. and Mrs. Happy Wiseman and daughter were guests from the Hereford Southwestern Public Service office.

The occasion served as a farewell wish for Gordon Lyons, manager of the Canyon office, who reported Tuesday morning to the Naval Office in Dallas; Mrs. Louise Oldham, bookkeeper, who is leaving for Ft. Worth the first of September; and Miss Billie Bee Flesher, who helped out during Mrs. Evelyn Frieze's absence from the office this summer. It was a welcoming too, of Mr. Guy

Guinn from Plainview who is the new manager of the Canyon office. Mrs. Maxine Black will be in the office with Mrs. Frieze from now on.

MRS. CLARENCE THOMPSON IN AMARILLO HOSPITAL

Mrs. Clarence Thompson underwent an operation in St. Anthony's Hospital Monday. She is reported as doing well.

Sunday evening Rev. Joseph Findley, pastor of the First Christian Church, was called to the bedside of his mother, who is seriously ill at her home in Marshall, Texas.

Dr. and Mrs. B. A. Stafford spent the week end here with old friends. Dr. Stafford is the son of the late Prof. B. A. Stafford, member of the original college faculty. It has been several years since he visited Canyon. He is now in the public health service of Mississippi.

Cpl. Jess Thomas of Frederick, Okla., spent the week end here with his family. He is a mechanic in the Army Air Corps.

CHURCH WOMEN MEET

The Canyon Council of Church Women will hold their next meeting at the Presbyterian Church Tuesday, August 29 at 4 p. m. One feature of the program will be a review of the public affairs pamphlet "The Race of Man" by Mrs. R. C. Hillier. Mrs. Lawrence Aber is president of the local council. S-Sgt. Awarded Bronze Star Medal

S-Sgt. Charles W. Barnard, Jr., son of Mr. and Mrs. C. W. Barnard, Clyde, Texas, and grandson of Mr. and Mrs. W. F. Barnard, Canyon, has been awarded the Bronze Star Medal for gallantry in action with the 131st Field Artillery 36th Infantry Division, Italy.

The citation reads as follows:

"Charles W. Barnard, Jr., Staff Sergeant, Battery B, 131st Field Artillery Battalion, for gallantry in action on 9 September 1943 in Italy. Shortly after daylight Sergeant Barnard, as chief of section, directed the unloading of seven 105 mm howitzers and one 57 mm anti-tank gun from amphibious vehicles. During the entire time the section was under heavy enemy artillery fire. After unloading the howitzers he supervised the placing of his own piece into position and fired throughout the morning, although constantly under enemy shelling. His actions made possible the establishment of artillery support for the attacking infantry and materially aided in the establishment of the beach head."

Football Will Be Resumed at West Texas State---Coach Has 37 Players

No Predictions Can Be Made as Young Group Is Taking Field for Bufts

Coach Gus Miller of the Buffalo football squad is not ready to make predictions as to the outcome of this season, according to his statement Tuesday. Athletics are being resumed this fall after having been suspended for a year because of the war. Coach Miller spoke at the luncheon of the Rotary club Tuesday.

He invites all citizens of Canyon to come down to Buffalo stadium and see the boys work out. A small squad is practicing every afternoon from 4 to 5 o'clock. Fall training starts Sept. 5. The coach states that the boys greatly appreciate having visitors, and it makes them realize that the people of the community are backing them.

Coach Miller referred to the schedule as a tough one, and made many humorous references to the handicaps under which the Buffaloes will be playing this fall. The schedule follows:

Sept. 23, Oklahoma A. & M., at Stillwater.

Sept. 29, open.

Oct. 7, New Mexico University at Albuquerque.

Oct. 13, Amarillo Army Air Field at Canyon.

Oct. 21, open.

Oct. 27, Texas Tech at Amarillo.

Nov. 3, Lubbock Army Air Base at Canyon.

Nov. 10, Amarillo Army Air Field at Amarillo.

Nov. 17, South Plains Army Air Base at Lubbock.

Nov. 25, tentative return game with New Mexico University.

Coach Miller read a list of 37 boys whom he believed will play football this fall. There are only three former Buffalo players. These are 4F men, and were good players in former years. The balance of the boys are young, many of them with little experience. Some of the boys look good for first string players, while others range from second to fourth string men. He believes that he will have about 40 boys in both the football and basketball squads.

"A team does not have to win in order to be worthwhile," stated Coach Miller. Naturally both the coaches and men want to win, but it is the attitude of the men that really counts.

Athletics are being resumed this fall because the games will help the college after the war. Many of the boys coming this fall are being sent by ex-students who have a great interest in the college. These boys will bring other boys after the war. Athletics this year will help bring students now, and will help the morale of the student body.

Chas. Duval announced that a Quarterback Club of former football players would be organized this fall to assist the coaches in their work. The first meeting of this new club would be held Sept. 17.

Visitors of the club were: Walter Parker of San Jon, N. M.; Bob Lindsey and Lt. J. W. Dillard of Borger; J. B. McFarland, J. L. McGilvray, H. M. Bainer, Earl O'Keefe, all of Amarillo.

Lt. Elizabeth Haidacher, Wac. Sgt. Paula Edwards, Wac. Pvt. Esther Kennedy, Wac., and Cpl. Gernard Jellinger, U. S. Army, from Amarillo Recruiting Office, Post Office Building, were in Canyon Friday interviewing prospective recruits for the Wacs. There is a need for a large number of recruits.

Cpl. George Huskey, somewhere in Europe, husband of Mrs. Willie Mae Huskey, has just been promoted to that rank, according to notice sent the News by Public Relation Department of Army.

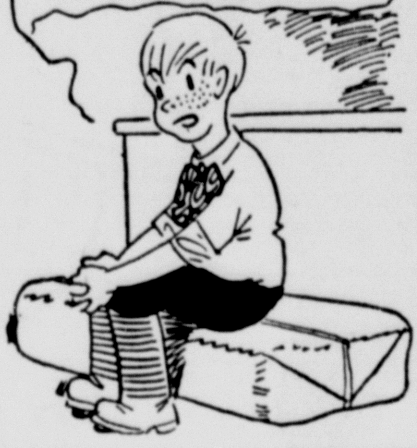

Miss Beth McCaslin left today for Clovis, N. M., where she will teach in Junior High School for the coming year.

Mrs. J. J. Bolling, Dottie, and John returned Friday from a week's visit with relatives at Pueblo and Ramah, Colo.

Mr. and Mrs. C. W. Barnard from Abilene arrived Sunday to visit in the parental W. F. Barnard home.

Ritchie Funeral

(Continued from page one)

Ritchie never made plans for the high school without consulting Supt. F. E. Savage, and each schedule and project was considered in its relation to other parts of the demonstration school and the college.

On several occasions Miss Ritchie was Acting Dean of Women. She was sponsor of The Prairie and of Le Mirage. She was a member of the Administrative Staff of the College, and her fellow workers leaned heavily upon her excellent judgment.

In spite of arduous duties on the campus, she had time and energy for community enterprises. For many years she taught a class of young men at the Baptist Sunday School. She was an adviser of the Young Men's Christian Association. She contributed time and money to the Canyon Chamber of Commerce; she was a member of the board of directors of the Canyon Country Club.

Miss Ritchie was an ideal neighbor; flowers from her garden, books and magazines from her library, and her own visits enriched the lives of everyone around her. Her kindness to new members of the faculty and to other newcomers in Canyon gave to many their favorable impression of Canyon as a place in which to live and work.

Miss Ritchie was born in 1870, in Claiborne County, Tennessee. She studied in the schools of her native state, at Sam Houston State Teachers College, the University of Texas, the University of Chicago. She continued her studies as long as she lived, keeping up-to-date and learning from every new movement. She welcomed new ways of doing things.

Funeral services were held at the Baptist Church at 10:00 Friday, August 18. Members of the choir were her former pupils and friends. Dr. Roy L. Johnson and President J. A. Hill took part in the service.

Accompanied by her sister-in-law, Mrs. E. B. Ritchie, and her nephew, George Ritchie, and President J. A. Hill and Miss Jean Moore, her body was taken to Mineral Wells, where final services were held Saturday afternoon.

Surviving are two brothers: E. B. Ritchie of Mineral Wells and Robert Ritchie of Fort Worth; one sister, Mrs. Margaret Tate of Morris-town, Tenn.

Pall bearers were: F. E. Savage, W. L. Vaughan, Milton Morris, John Gillis, Dean R. P. Jarrett, and W. C. Black.

S-Sgt. Curtis W. Samples, Jr., somewhere in the Southwest Pacific, has recently received promotion to that rank from the rank of Sgt., according to word received by his mother, Mrs. C. W. Samples, Sr.

Mr. and Mrs. Everett Key and children, Robert and Carol, from Lubbock spent last week with Mrs. J. D. Key.

Flying Courses

(Continued from page one)

The instruction will be in charge of Sherman E. Attaway, who since January 1943, has piled up a total of 16,000 hours and 1,280,000 miles of instructional flying without a casualty.

Attaway has been flying since 1937.

The West Texas State College Air Field has 207 acres of land, and can house 21 civilian planes. Eighty flight training students can be scheduled for work during any one period.

The shops of the field are equipped to accommodate seven planes at a time, and there are mechanics to make all sorts of needed repairs.

Twenty civilians have been enrolled for flight training since the first of July, and it is believed that a large number of students and others will take advantage of the opportunities at this field during the next year.

It is thought that West Texas State College is the first institution in Texas to offer this kind of a program for the benefit of its teachers. President J. A. Hill and Dean R. P. Jarrett have been interested in the field of aviation for many years, and the new plan is largely a result of their careful study.

The fall session of the college begins on Sept. 19.

Mrs. George T. Waldrup, and Cherry Sue, Mrs. A. G. Brant, Bobby and Joyce left Friday night for Post. A. G. Brant and Billy Guy joined them in Post Sunday to spend a week visiting relatives and friends.

Mrs. Artie Barnard of Oklahoma City, Okla., is visiting in the home of her father and mother-in-law, Mr. and Mrs. W. F. Barnard.

Mrs. Evelyn Frieze is back on the job with the Southwestern Public Service, following an operation for appendicitis.

Mrs. G. C. Mayfield and son from Quanah are spending the week end with Mr. and Mrs. Ed Weeks.

Mr. and Mrs. Kermit Pond and children and Mrs. Pond's mother, are in Temple, where Mrs. Pond is going through the clinic.

The father received a wire which read: "No mon. No fun. Your son." He sent this answer: "Too bad, my lad. Your Dad."

Don't run into debt with your shoe maker or you can't call your sole your own.

Wesley Cox To Be Coach at Overton High School

Wesley Cox, former Canyon High School coach, and Mrs. Cox will leave Canyon about Sept. 1 for Overton, Texas where he will be coach of Overton High School.

Mr. Cox has been associated with his father, G. W. Cox, in the Canyon Aviation Service for the past year.

Thanksgiving Poems Asked in Contest

Poets of this county are requested to send Thanksgiving poems for a national contest. The contest closes October 15, states Frank F. Canada, vice chairman of the state.

Poems for the contest should be mailed to Joe W. English, Truscott, Texas, who is State Chairman.

Evelyn's Beauty Shop has installed new shampoo fixtures that are more than just exceedingly attractive; they are super-comfortable.

Mrs. George T. Waldrup and daughter, Cherry Sue, from Hobbs, N. M., spent last week with her sister, Mrs. A. G. Brant and family.

Mandy, seventy years old, but looking very much younger, was asked the secret of her youthful appearance. She answered: "When I works, I works hard; when I sets I sets loose; and when I starts worrying I jes goes to sleep."

Pretty young dancer: What is the difference between marching and dancing?

Soldier: I don't know.
Dancer: I didn't think you did. Let's sit out this one.

Miss Brown: How did you oversleep this morning, Betty?

Betty: Because there are eight of us in the house, and the alarm was set for seven.

Mother: There isn't much canned corn this year.

Young son: No, I guess all the kernels are in the army.

Soldier Vote Is Confusing Under Recent Rulings Says Sec'y of State

Martin Takes Position on the Labor iStuation

People of Texas will not elect Grover Sellers attorney general in the runoff Democratic primary Aug. 26 because he has the indorsement of the Political Action Committee of the CIO and will reap the benefits of the CIO 25 million dollar slush fund, State Senator Jesse E. Martin, attorney general candidate, declares.

Martin read a quotation from Sellers which stated that Sellers did not believe the Manford Labor Act, which required paid labor organizers to obtain a Texas permit, and to account for money spent constitutional.

"Despite this, he instructed his assistant to go to Washington to argue before the Supreme Court that the law is constitutional," Martin said. "Is it any wonder that the Supreme Court ordered the acting attorney general to reopen the case, that he stop pussyfooting and fence straddling and that he come out in the open and not make a half-hearted plea to this high tribunal?"

"As Senator I voted for the Manford bill because I thought it was for the wholesome and best interests of the laboring man."

Martin renewed his charge that Sellers, called on by the Governor to render an opinion as to whether the Legislature could be called to give soldiers the right to vote without paying a poll tax, replied that such could not be done because a great public calamity was necessary to justify it, and "this war is not a great public calamity."

He said that Sellers, as the acting attorney general, realized that if the Legislature was called into brief session to give soldiers the right to vote that the Senate would act on his appointment.

"He knew that if he could not get a two thirds vote, he would not be the acting attorney general of Texas," Martin said.

"He knew that Jesse Martin served in the Marine Corps during World War I and that he, Grover Sellers, although only 23, did not serve in that World War and that if the men and women in the armed forces were given the right to vote they would not vote for him as attorney general but would vote for Jesse E. Martin, an ex-serviceman."

A two-star general, returning to camp one evening, couldn't produce his identification. The rookie on guard refused to let him pass thru the gate. Finally, the exasperated general bent forward, pointed to the stars on his shoulders and bellowed: "Do you know what these mean?"

"Sure," replied the rookie guard, "you got two sons in the service."

When molting, wild birds shed two feathers at a time, a corresponding feather from each wing. When new feathers are halfway grown out, a second pair of feathers is shed. Thus, throughout the entire molting season, the birds' delicate flight mechanism remains in balance.

In the mating season, the Purple Finch picks up a straw with his bill and handles it like a drum major in intricate maneuvers calculated to impress the chick of his choice. Maybe there is and maybe there isn't sixty other ways that would have kept engine acids from raising Ned with this pre-Pearl Harbor limousine. But one thing I know is this: it's still running swell on nothing but Conoco Nth motor oil. You needn't be a scientist to know that acids from every explosion are forever trying to spoil an engine. Looks like the proper idea is to try blockading those acids by getting your engine OIL-PLATED. I learned there's a modern synthetic in Conoco Nth oil that reminds you of magnetism, because it makes inside surfaces attract a shield of OIL-PLATING. Acids can't so easily tear right into this. Then your OIL-PLATED engine has an extra chance to last you. When new cars arrive, hurrah! But a real advanced improvement right now is to switch to Conoco Nth motor oil, see.

Remember those grim days during the Great Depression when men who couldn't find work stood on street corners selling apples?

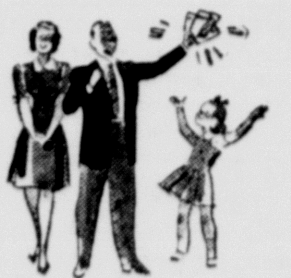

Many of those apple peddlers had been prosperous... had had good jobs. They'd been making extra money... just as you are today. But the trouble was, they thought things would always be like that.

Are you making that mistake today? Or are you saving your extra money so that no matter what happens after the war you will have some money you can get your hands on?

CIO Attempting Control Courts States Critz

Justice Richard Critz of the Texas Supreme Court, seeking re-election in the runoff Democratic primary August 26, declares that the CIO is attempting to gain control of Texas Courts and that his opponent has the 100 per cent indorsement of the CIO Political Action Committee. He denounced the CIO pressure-group political methods.

"This Political Action Committee has leaders who are not satisfied with fair and impartial rulings from the bench," said Justice Critz. "They will not be satisfied until they have packed our courts with men who will close their eyes to the rights of the people and interpret the law the way these CIO leaders want it interpreted."

"This," continued Justice Critz, "is not Democracy. I would resign my office today if I thought I would have to bow to any pressure group in order to hold it. I know the voters of Texas do not want this CIO group to hand pick the judges who are looked to for mercy and justice."

Justice Critz polled approximately 100,000 more votes than his nearest opponent in the first primary. He led the ticket in approximately 200 counties despite the edict that went out from such political committees as the CIO that he must be defeated.

"I would hate for my son and son-in-law, now in the armed services, to come home from this war to find that special privilege has succeeded in seizing control of the courts of Texas," said Judge Critz, whose ancestors fought the wars in America since 1776.

He said that the huge vote given him in the first primary is proof that the public resents attempts of pressure groups to intimidate Texas courts.

Judge Critz was appointed to the Supreme Court Commission by former Governor Dan Moody and later to the court itself by former Governor James V. Alfred to fill an unexpired term. He is seeking re-election to his second elective term.

Section 1. That Section 51 of Article 3 of the Constitution of the State of Texas be amended by adding thereto Sections 51-e and 51-f, which shall read as follows:

"Section 51-e. Each incorporated city and town in this State shall have the power and authority to provide a system of retirement and disability pensions for their appointive officers and employees who have become disabled as a direct and proximate result of the performance of their duties, or have passed their sixtieth birthday, or have been employed by such city or town for more than twenty-five (25) years and have passed their sixtieth birthday, when and if, but only when and if, such system has been approved at an election by the qualified voters of such city or town entitled to vote on the question of issuance of tax supported bonds; provided that no city or town shall contribute more than the equivalent of seven and one-half (7½) per centum of salaries and wages of the officers and employees entitled to participate in its pension system, and that said officers and employees shall contribute a like amount; and this Amendment shall not reduce the authority nor duty of any city or town otherwise existing.

"Section 51-f. The Legislature of this State shall have the authority to provide for a system of retirement and disability pensions for appointive officers and employees of cities and towns to operate Statewide or by districts under such plan and program as the Legislature shall direct and shall provide that participation therein by cities and towns shall be voluntary; provided that the Legislature shall never make an appropriation to pay any of the cost of such system of retirement and disability pensions; providing for an election on the question of the adoption or rejection of such an amendment and making an appropriation therefor; providing for the proclamation and publication thereof and prescribing the form of ballot.

"Section 9. The State tax on property, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit

ment and disability pensions for appointive officers and employees of cities and towns to operate Statewide or by districts under such plan and program as the Legislature shall direct and shall provide that participation therein by cities and towns shall be voluntary; provided that the Legislature shall never make an appropriation to pay any of the cost of any system authorized by this Section."

Sec. 2. The foregoing Constitutional Amendments shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State in November, 1944, at which all ballots shall have printed thereon, "For the Constitutional Amendment providing that the cities and towns in this State shall have the power and authority to provide a system of pensions for their appointive officers and employees," and "Against the Constitutional Amendment providing that all cities and towns in this State shall have the power and authority to provide a system of pensions for their appointive officers and employees." All ballots at such election shall also have printed thereon, "For the Constitutional Amendment giving authority to the Legislature to provide for a system of retirement and disability pensions for appointive officers and employees of cities and towns." Each voter shall scratch out two (2) of said clauses on the ballot, leaving the two (2) expressing his vote on the proposed Amendment.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by Constitution for Amendments thereto.

Sec. 4. The sum of Five Thousand Dollars (\$5,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State, not otherwise appropriated, to pay the expenses of such publication and election.

H. J. R. No. 18 HOUSE JOINT RESOLUTION

proposing an Amendment to Section 9 of Article 8 of the Constitution of the State of Texas, by changing said Section 9 so as to provide that the Commissioners Court in any county may re-allocate the county tax levies authorized in said section by changing the rates provided for any of the purposes authorized in said section by either increasing or decreasing the same, but in no event shall the total of such taxes exceed eighty (80) cents on the one hundred dollars valuation for any one year; providing that before such Commissioners Court may make such re-allocations and changes in such levies that the same shall be submitted to the qualified property tax paying voters of such county at a general or special election and shall be approved by a majority of the qualified property tax paying voters, voting in such election; providing that if and when such re-allocations and changes in such county tax levies have been approved by the qualified property tax paying voters of any county as herein provided, such re-allocations and changes shall remain in force and effect for a period of six (6) years from the date of the election at which same shall be approved, unless the same again shall have been changed by a majority vote of the qualified property tax paying voters of such county, voting on the proposition, after submission by the Commissioners Court at a general or special election for that purpose; providing that this Amendment shall not be construed as a limitation on powers delegated to counties, cities or towns by any other section of the Constitution.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 9 of Article 8 of the Constitution of the State of Texas, be amended that the same will hereafter read as follows:

"Section 9. The State tax on property, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit

Tires Wear Out

twice as fast at 90°

WHEN YOU SUFFER with the heat, remember that your tires really *sizzle* on the road... because road-surfaces are usually 25° hotter than air temperatures.

This frying-pan heat saps the strength of rubber... produces doubled wear as the thermometer rises from 60° to 90°... and multiplies tire-failure by twenty per cent.

Obviously, you and every other patriotic driver, want to get every bit of precious mileage remaining in your present set of tires. That is why we bring you these authoritative suggestions:

Avoid hot-road driving as much as you can... Drive at slower speeds... Don't over-inflate tires, but avoid under-inflation as you would a plague... And don't neglect to have your tires cross-

Your Phillips 66 Service Man is anxious and waiting to help you. Give him the opportunity, at least once a week, to check air pressures... to inspect for nail holes, cuts, and bruises... to examine tires so he can warn you when re-capping is advisable.

This is only part of the *Tire-Saving and Car-Saving Service* pledged to you at every Phillips 66 Service Station, to help you "Care For Your Car For Your Country."

In the Nation's interest and in your own, be watchful and intelligent about making your car and your tires last longer and go farther. Drive in for help at the Orange and Black 66 Shield, the sign of famous Phillips 66 Gasoline and Phillips 66 Motor Oil.

of the public free schools, shall never exceed thirty-five (35) cents on the one hundred dollars valuation; and no county, city or town shall levy more than twenty-five (25) cents for city or county purposes, and not exceeding fifteen (15) cents for roads and bridges, and not exceeding fifteen (15) cents to pay jurors on the one hundred dollars valuation, except for the payment of debts, incurred prior to the adoption of the Amendment September 25, 1883; and for the erection of public buildings, streets, sewers, waterworks and other permanent improvements, not to exceed twenty-five (25) cents on the one hundred dollars valuation in any one year, and except as is in this Constitution otherwise provided; provided, however, that the Commissioners Court in any county may re-allocate the foregoing county taxes by changing the rates provided for any of the foregoing purposes by either increasing or decreasing the same, but in no event shall the total of said foregoing county taxes exceed eighty (80) cents on the one hundred dollars valuation, in any one year; provided further, that before said Commissioners Court may make such re-allocations and changes in said county taxes that the same shall be submitted to the qualified property tax paying voters of such county at a general or special election, and shall be approved by a majority of the qualified property tax paying voters of such county at a general or special election, and shall be approved by a majority of the qualified property tax paying voters of such county at a general or special election for that purpose; and the Legislature may also authorize an additional annual ad valorem tax to be levied and collected for the further maintenance of the public roads; provided that a majority of the qualified property tax paying voters of the county voting at an election to be held for that purpose shall vote such tax, not to exceed fifteen (15) cents on the one hundred dollars valuation of the property subject to taxation in such county. And the Legislature may pass local laws for the maintenance of the public roads and highways, without the local notice required for special or local laws. This section shall not be construed as a limitation of powers delegated to counties, cities or towns by any other section of this Constitution."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a general election to be held throughout the State of Texas, on the seventh day of November, 1944, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

"For the Amendment to Section 9 of Article 8 of the Constitution of the State of Texas, so as to provide that the Commissioners Court

in any county may re-allocate the county tax levies authorized in said section by changing the rates provided for any of the purposes authorized in said section by either increasing or decreasing the same, but in no event shall the total of such taxes exceed eighty (80) cents on the one hundred dollars valuation for any one year; providing that before such Commissioners Court may make such re-allocations and changes in such levies that the same shall be submitted to the qualified property tax paying voters of such county at a general or special election and shall be approved by a majority of the qualified property tax paying voters of such county, voting on the proposition, after submission by the Commissioners Court at a general or special election for that purpose; and providing that this Amendment shall not be construed as a limitation on powers delegated to counties, cities or towns by any other section of the Constitution."

Those opposing said proposed Amendment shall write or have printed on their ballots the following words:

"Against the Amendment to Section 9 of Article 8 of the Constitution of the State of Texas, so as to provide that the Commissioners Court in any county may re-allocate the county tax levies authorized in said section by changing the rates provided for any of the purposes authorized in said section by either increasing or decreasing the same, but in no event shall the total of such taxes exceed eighty (80) cents on the one hundred dollars valuation for any one year; providing that before such Commissioners Court may make such re-allocations and changes in such levies that the same shall be submitted to the qualified property tax paying voters of such county at a general or special election and shall be approved by a

majority of the qualified property tax paying voters, voting in such election; providing that if and when such re-allocations and changes in such county tax levies have been approved by the qualified property tax paying voters of any county as herein provided, such re-allocations and changes shall remain in force and effect for a period of six (6) years from the date of election at which same shall be approved, unless the same shall have been changed by a majority vote of the qualified property tax paying voters of such county, voting on the proposition, after submission by the Commissioners Court at a general or special election for that purpose; and providing that this Amendment shall not be construed as a limitation of powers delegated to counties, cities or towns by any other section of the Constitution."

If it appears from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the State Constitution."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and Laws of this State.

Sec. 4. The sum of Five Thousand Dollars (\$5,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State, not otherwise appropriated, to pay the expenses of such publication and election.
